

BROTHERLY

BIOGRAPHY

Brotherly are North London soul-mates Anna Stubbs and Robin Mullarkey. Their second album, due for release in Summer 09, is a cocktail of meticulously produced and crafted songs, stirring vocals and sweeping string sections. Always present are Brotherly's trademark edgy beats and a healthy spirit of eccentricity.

The first album *One Sweet Life* was released in 2007. Brotherly recorded a live session at BBC Maida Vale Studios for Gilles Peterson in 2006 and were nominated for Worldwide's 'Session of the Year'. Their album, 3 singles and various compilations have inspired fans and DJs across the globe, and collaborations include Zero7, Roisin Murphy and Bugz in the Attic.

The single 'Spin Down' was released on iTunes in March 09 and was launched at Soul Family Sunday at Ronnie Scott's on March 29th.
